Akhlaque Ahmad

AI Full Stack Engineer

Angular & Node.js Architecture · AI/Agentic Systems

Bengaluru, India · akhlaquea01@gmail.com · +91-8797247279 · www.linkedin.com/in/iam-atts/ · github.com/Akhlaquea01

5.5+ Years of experience · **50%** Manual effort reduced · **40%** Performance boost · **30%** Integration effort cut

SUMMARY

Lead Engineer with 5.5+ years of experience developing enterprise B2B SaaS applications using Angular, TypeScript, JavaScript, Node.js, Express.js, MongoDB, and REST APIs. Specialized in scalable frontend architecture, reusable component development, Node.js BFF services, and AI-enabled enterprise applications. Hands-on experience integrating LiteLLM/OpenAI models, Server-Sent Events (SSE), MCP, and Web Components to build intelligent sourcing solutions. Experienced in performance optimization, production support, code reviews, feature ownership, and delivering high-quality software in Agile environments.

EXPERIENCE

Zycus

Lead Engineer — Apr 2026 - Present

Bengaluru, Karnataka, India · Hybrid

- Led development and architectural decisions for ably and Agentic Systems.
- Spearheaded the integration of AI-driven workflows and agent-based solutions.
- Mentored team members and enforced clean code and performance optimization practices.
- Collaborated with stakeholders to define requirements for intelligent enterprise software.
- Successfully launched new agentic capabilities and streamlined development processes.

Senior Software Engineer — Apr 2024 - Mar 2026

Bengaluru, Karnataka, India · Hybrid

- Develop and maintain source-to-pay procurement software, ensuring efficiency and scalability.
- Created functionality and user experience for multiple Merlin Agentic Platforms.
- Optimize UI performance by upgrading packages and resolving memory leaks.
- Implement AWS services like S3 for file management and SQS for messaging.
- Increase code coverage and refactor legacy code for better maintainability.

Software Engineer — May 2022 - Jul 2024

Bengaluru, Karnataka, India · Hybrid

- Developed and maintained procurement software using Angular and Bootstrap.
- Integrated RESTful APIs using Swagger for seamless data exchange.
- Implemented CI/CD pipelines with GoCD for automated deployments.

Associate Software Engineer — Jul 2021 - Apr 2022

Bangalore Urban, Karnataka, India · Hybrid

- Played a key role in migrating supplier-side legacy pages to the Dew Drops architecture.
- Collaborated with cross-functional teams using Git and Jira for efficient project management.
- Conducted code reviews and implemented improvements based on SonarQube analysis.

Software Engineering Trainee — Feb 2021 - Jun 2021

Bangalore Urban, Karnataka, India · Remote

- Assisted in developing and maintaining web applications.
- Participated in code reviews and implemented suggested improvements.
- Actively learned and applied new technologies relevant to the project.

TECHNICAL SKILLS

AI & Enterprise Integration: LiteLLM, OpenAI, MCP (Model Context Protocol), Ollama, Open Router, Server-Sent Events (SSE), AI Chat Integration, Agentic Workflows

Programming Languages: TypeScript, JavaScript (ES6+), HTML5, CSS3, SCSS, SQL

Backend: Node.js, Express.js, Swagger/OpenAPI, MongoDB CRUD Operations, REST APIs, Backend-for-Frontend (BFF), Joi Validation, Event-Driven Architecture

Frontend: Angular (11–22), React (Basics), Bootstrap, Tailwind CSS, RxJS, Web Components, Custom NPM Packages, Ably Pub/Sub

Databases: MongoDB, MySQL, PostgreSQL (Basic), Redis

Tools & Platforms: Git, GitLab, Bitbucket, Jenkins, GoCD, Argo CD, Docker, Kubernetes

Monitoring & Debugging: Datadog, Dynatrace, Elastic APM, Rookout, Backstage, JIRA, Postman, VS Code

Performance & Quality: Jest, Lazy Loading, Angular Signals, OnPush Change Detection, Virtual Scrolling, TrackBy, Code Splitting, Bundle Optimization

SELECTED PROJECTS

iSource (Enterprise Sourcing Platform)
Angular · DewDrops · Node BFF · Ably · Highcharts · STOMP
A high-scale sourcing platform with a lazy-loaded architecture, built using Angular DewDrops UI and a Node/Express BFF that aggregates multi-product APIs.

Merlin Assist & Merlin Agentic Platform (MAP)
React 18 · Angular · AI · MCP · Ably · MongoDB · Teams/Slack
An AI-powered assist chat PWA embedded across the enterprise, powered by a Spring Boot backend orchestrating multi-model LLMs and agentic workflows.

Autonomous Negotiation (AI-Assisted Sourcing)
Angular · DewDrops · Node/Express BFF · Ably · Streaming AI · MCP · Markdown · PDF
An autonomous negotiation module and product-pluggable chat shell spanning a buyer chat interface and supplier portal, powered by real-time messaging, streaming AI capabilities, and MCP tools.

EDUCATION

Bachelor of Technology (CSE) — Vishveshwarya Group of Institutions, Ghaziabad, UP, India · 2016 – 2020

Intermediate (Mathematics) — K.R. Bose Smarak College, Muzaffarpur, Bihar, India · 2016

Matriculation — Sacred Heart School, Malighat, Muzaffarpur, Bihar · May 2014

CERTIFICATIONS

AI-First Software Engineering Program — Airtribe · Ongoing

Angular Developer Certification — Edureka · Completed

ACHIEVEMENTS

Employee of the Month ×4
Apr 2022, Apr 2023, Nov 2024, and Apr 2025 — recognized for technical leadership and consistent delivery excellence.

Reduced manual sourcing effort by 50%
Through advanced workflow automation and optimization across the procurement platform.
